

### MSD APS Starters

Now you can have MSD Performance from start to finish!

The Advanced Power System Starters are now available for Ford, Chrysler and the GM LS engines! The LS and Ford APS Starters feature a three horsepower motor combined with a 4.4:1 gear reduction to produce incredible torque. They also have a billet mounting block that can be located in different positions to allow for header and suspension clearance issues.

- **Stout 4.4:1 gear reduction**
- **3-horsepower motor**
- **Plenty of torque for high compression**
- **Billet mounting block**

#### **NOW AVAILABLE!**
